PERSONAL PROJECTS

Comprehensive development of front-end and back-end of E-commerce Website. (03/2023 - 03/2023)

- I have develop whole website of E-commerce by using Django framework which is a python website development framework. I had develop complete frontend and backend respectively.

ACHIEVEMENTS

Shopping Store Development (05/2023 - 05/2023)

It was my huge achievement to develop a web application within a week .it includes back-end development with database and front-end side with Html5,CSS3,JavaScript and bootstrap and had to develop in 1 week which was quite challenging for me .
